ARAMAYIS HAYRAPETYAN

Java Developer | Spring Boot Framework | Hibernate Framework | PHP | Codeigniter

+374 33 14 81 10   aramayishayrapetyan00@gmail.com   Yerevan

SUMMARY

Having completed specialized courses in Java programming and gained a strong foundation during four years of study at an Information Technology College, I have acquired the essential skills for web development. Throughout my academic journey and participation in various competitions, I have worked on educational projects, including the development of administrative panels and internal management systems for educational institutions. I am eager to leverage my knowledge and practical experience to contribute effectively to professional environments, delivering innovative solutions and enhancing organizational processes. Additionally, I am committed to continuous learning and growth within the ever-evolving field of technology.

EXPERIENCE

Web developer   09/2024   Now

NCET Armenia   Yerevan, Armenia
- I Developed and maintained backend systems for projects with a clear frontend-backend separation
- Worked on projects focused on the digital transformation of the education sector.

EDUCATION

Software Engineering for Computing and Automated Systems   09/2021   01/2025

Yerevan State College Of Informatics   Yerevan, Armenia

Java Software Development   04/2024   01/2025

Colibri International   Yerevan, Armenia

Sololearn certificates - Google Drive

PROJECTS

Educational platform

An educational platform that connects the faculty and students of a specific institution to enhance the efficiency of the educational process. (https://github.com/Aramayis33/EduConnect

)

KEY ACHIEVEMENTS

√ **IT TECH 2024 Finalist**
During the competition, the team I led worked with the Java programming language. By overcoming all the given challenges, we managed to reach the final stage among approximately 50 participating teams.

√ **IT-Planet 2024 Olympiad**
I participated and performed well in the Java programming category of the IT Planet 2024 competition, organized by SberTech and the GitVerse platform.

√ **The Key to Your Work Campaign 2024**
I participated in a nationwide competition with hundreds of contestants, organized in collaboration with the SoloLearn platform. I emerged as the winner of the first round and secured 2nd place overall in the final results.

SKILLS

Java · Spring Boot · MySql · Hibernate · Java Gui · Maven · C# · Rest API · .NET Framework · Php · CodeIgniter · Git · Html · Css · Js · Bootstrap

COURSES

Java Developer
I have completed a Java course, covering the fundamentals of the language up to web development.

Sololearn Courses
I have completed all the courses on the SoloLearn platform, including materials related to machine learning.
